STECOME CONTRACTING WLL, established recently is one of the contracting Companies in the industry offering professional experience of more than 25 years to the Middle East market. The company sources a talented fleet of professionals with extensive experience to provide unparalleled industrial solutions to clients operating in the industry. The goal is to develop, implement and maintain integrated systems that are critical for the protection of life, assets, productivity and reputation.

Our demonstrated ability to succeed has helped us gain immediate recognition in the region, where we strive to grow and deliver cost-effective, timely and successful solutions to our clients.

STECOME CONTRACTING WLL believes in meeting the highest standards of quality service. As a quality company, we are committed to complying with the Industry Standards and Codes of Practice.

We work in partnership with Consultants, Building Contractors, Interior Contractors, Building Managers, Project Managers, Architects, and Home Owners to guarantee a planned and systematic installation, inspection, testing, commissioning and rectification of MEP Services.

STECOME CONTRACTING WLL extends round the clock service to its clients throughout the year. The company provides comprehensive contracting service with the help of highly experienced and qualified Engineers, Technicians and Technical teams that are trained to handle all types of systems. This enables us to design our systems, operations and communications to offer a range of advanced solutions to our clients that are tailored to their expectations and available resources.

Stecome Contracting WLL is committed to become the best Contracting & Engineering Services Company by providing Engineering excellence, better design, quality of work and Professionalism.

Stecome Contracting WLL seeks to promote safe, efficient and effective and high quality emergency and non-emergency services to clients in the QATAR.

The goal is to develop, implement and maintain integrated systems that are critical for the protection of life, assets, productivity and reputation.

We are looking forward to proudly continue and expand our services in the decades to come to make the QATAR an even safer place than it is today.

**To set up Stecome Contracting WLL as one of the leading companies in the Middle East that caters to client needs in a professional and effective manner.**

STECOME'S mission is to empower customer to secure life, property and business by delivering high quality and innovative solutions and knowledge using world class manufacturing processes through best engineering practice and expand its worldwide.

Our mission is to provide products and services that help make people's lives better, safer and healthier.

# Quality & Safety policy

Safety Comes First... We at STECOME strive to make the QATAR a safe place to live and work in.

We exceed CUSTOMER EXPECTATIONS for quality and service. We construct and maintain customer relationships and guarantee long-lasting satisfaction.

We constantly demonstrate highest ethical standards in our procedures. We honor our agreements and are Truthful in our interactions.

We Esteem, CARE and have DIGNITY towards all individuals and value our diversity as a source of potency.

"Together Everyone Achieves More" is what we strongly believe in. We admire TEAMWORK and the limitless possibilities of collaborative energy. We achieve excellence by inserting COLLECTIVE GOALS ahead of personal interests.

We set a trend and establish an environment of constant enhancement, provide opportunities for people to grow, both personally and professionally.

We strive for constant improvement in our PERFORMANCE, measuring RESULTS watchfully, set our benchmarks and raising the bar of performance higher every time.

We offer a wide range of engineering solutions on total turnkey basis right from Design, detailed engineering. Supply, Install, testing and commissioning of the system as described below.

## **A. Fire Alarm & Fire Fighting System**

Supply, Installation, Testing and commissioning of Fire Sprinklers, fire hose reels, landing valves, pump sets, piping with valves & accessories, FM200, Deluge systems, etc.

Supply, Installation, Testing and commissioning of Fire Alarm & Central Emergency and Exit Systems. It also includes preventive maintenance sensitivity testing and emergency services as and when required.

## B. Electrical Systems

We performs specialized construction and industrial electrical work related to design installation and maintenance of Electrical systems. Our work included of all labors equipment supplies and materials and performing of all operations necessary to complete the installation of an Electrical system as indicated on the plans.

It also includes

1. Supply and installation of Transformers, H.V. Switchgears, Cable and Termination, etc.
2. Lighting and Small Power Systems that include Conduiting & Wiring, Cabling and Termination, Main Distribution Boards, Sub Main Distribution Boards, Power Factor Correction Capacitor Banks including Generator and ATS Panel.
3. Our scope also includes testing & commissioning & Kahramaa approval.

## C. Plumbing & Drainage Systems

We provide labor, materials, tools, equipment and miscellaneous items required to complete the plumbing works as per the plan in full. Underground / Aboveground Drainage Systems that include pipes, fittings, floor drains, cleanouts, rain water outlets, catchment basins and channel gratings, sewage and storm water lifting station, etc.

Water closets, wash hand basins, bidets, bath tubs, shower trays, Jacuzzi, whirlpools etc.

## D. HVAC System

The services include Heat Load Calculation, selection of equipment, Design and Energy Conservation in terms of savings in power, building automation (BMS), etc.

AC system consists of DX Type, Chilled Water system viz: Reciprocation Screw Chillers & Centrifugal Chillers in the range of 100-3500 TR central plants, Chilled Water Pipes, fittings, valves and related accessories, etc.

Fabrication of ducts in accordance with SMACNA standard and to install as per ASHRAE standard.

Specialized systems viz: Smoke Management Systems, Staircase Pressurization system, 24x7 Monitoring system, etc. The installation team has been trained to take care of specific noise / vibration control measures prior to erection of any equipment viz: Chillers, Pumps, Air Handling Units, Fan Coil Units, Mechanical Ventilation, etc.

Air balancing / water balancing prior to final testing and commissioning activities in accordance with CIBSE.

## **E. Swimming pools & Hydro massaging Spa**

Construction Testing and commissioning of swimming pools, water features, Fish Ponds, Water Bodies etc.

Supply, Installation, of basin equipments .hydro massaging nozzles, filtration equipments, underwater illumination, ladders. Overflow gratings, heating and cooling pumps, steam bath cabins and sauna Etc.

**Basin Equipments**

**Pumps and Filters**

**Under Water Lights**

**Cleaning Equipments**

## F. Construction & Maintenance

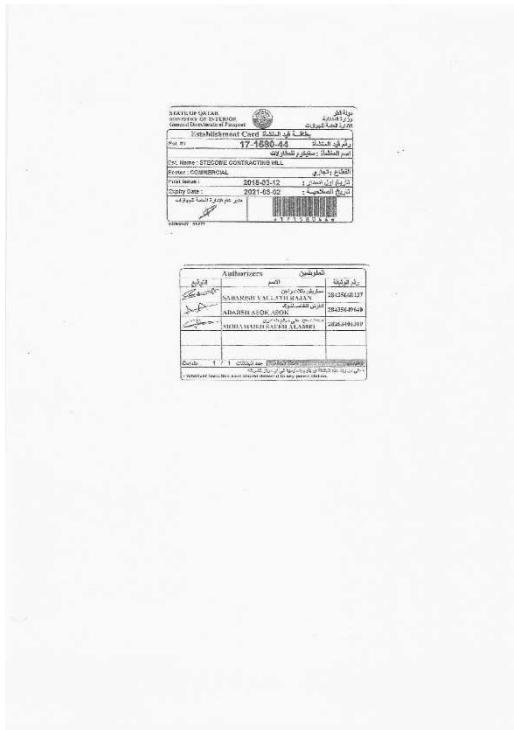

Stecome offers to lead the phenomenal construction industry revolution, with its goal of excellence, the Company earned reputation of delivering an exceptional construction services in the Qatar. Stecome offers complete system service level agreements and repairs accordingly. We undertake repairs, renovations and additions to all existing types of system depending on the compatibility and technology lifecycle.
